

CUSSB 17° ANNIVERSARY

FROM CLINICAL TRIAL DATA TO REAL WORLD DATA:

Pitfalls and challenges within a modern statistical perspective

27th JANUARY, 2022

Vita-Salute San Raffaele University, Milano

Aula Himhotep

9:30-13:00

09:30–10:00 Welcome and introduction

Clelia Di Serio (CUSSB, UNISR, Milano)

10:00–10:40 Modelling Hazard Function in Breast Cancer Follow up

Elia Biganzoli (Università degli Studi di Milano Statale)

10:45–11:00 Break

**11:00–11:40 The challenges of observational studies on the role of frailty
in Covid19 patients**

Grazia Valsecchi (Università degli Studi di Milano-Bicocca)

**11:45–12:15 “Confounding” statistical analysis with unbalanced risks
groups in real world data: Nature or Nurture?**

Clelia Di Serio (CUSSB, UNISR, Milano)

**12:20–12:50 Can Bayesian Network empower propensity score estimation
from Real World Data?**

Federica Cugnata (CUSSB, UNISR, Milano)

12:50-13:00 Concluding remarks.

La mattina seminariale avrà luogo in presenza a meno di ulteriori aggiornamenti. E' gradita conferma della presenza scrivendo a pederzoli.samanta@hsr.it
